Draft Boards Set Up; Registration Aug. 30

The necessary preliminary arrangements for the August 30 registration of 18 to 25 year olds moved into high gear this week with Governor Earl Warren recommending nominees to President Truman for appointment to draft boards.

Only Washington Township nominees named by Governor Warren were Manuel W. Lewis, Centerville postmaster, and Edward E. Enos, Niles postmaster. Lewis was named to serve on Board No. 52 and Enos on Board No. 54. Enos stated this week, however, that he had declined the appointment, stating that personal affairs would not afford him the necessary time to devote to the work. He previously served as a draft board member before and during World War II.

Colonel Kenneth H. Leitch, named to head the State Selective Service organization, stated this week that it is doubtful whether the boards would conduct the registration, indicating that other registrations places will have to be set up.

A total of 53,000 California youths will be enrolled in the peace-time draft.

Although no official copies of the new law have been received, Generald Mark Clark, commanding the Sixth Army, this week furnished a summary of the law for the benefit of the public.

EARL RILEY NAMED LEGION COMMANDER

Earl A. Riley, Niles, a veteran of World War I, Wednesday evening was elected commander of the Washington Township Post, American Legion, succeeding Paul Hockinson, Centerville.

The local post also paid tribute to Frank X. Veit, Newark, who was re-elected to begin his 25th year as adjutant. Veit, who is a reporter in superior court in Oakland, is noted for his ability to keep the minutes of the meetings in a beautiful, flowing longhand script and his records are highly treasured by the post.

Other officers named to head the organization during the coming year were: Art Gomes, first vice-commander; Jack Pool, second vice-commander; LeRoy Broun, chaplain; Dorothy Gomes, sergeant-at-arms; Frank Mendonca, historian; Manuel Swartz, LeRoy Broun and William Gray, executive committee.

Named to attend the state convention in San Francisco September 2 to 6 as delegates from the post were Paul Hockinson, Jack Pool, William Gray, George Smith and Earl Riley. Alternates named were Arthur Gomes, Dorothy Gomes, Sam G. Scott, Manuel Swartz, Joe Corey and William Kitchings.

Installation of the new officers will be held the evening of September 8 at the Memorial Building, conducted by a team from the 40 and 8 of Oakland. Newly elected officers of the Legion Auxiliary will be installed the same evening.

FIND BODY OF FRUIT PICKER

The body of a man, identified as Michele Scaglione, a fruit picker, was found about 5:30 a.m. Monday on the Southern Pacific property adjacent to the Marble Filling Station, First street, Niles.

The body, fully clad except for shoes and socks, was lying on the ground at the rear of a large truck. It was learned that he had been sleeping in the truck, and was first thought that in attempting to climb into the truck during the night he had fallen and struck his head, resulting in a deep scalp wound. However, an autopsy performer Monday evening, established death as a result of a heart attack.

The sheriff's office, in attempting to locate relatives of the dead man, learned that he was well known around Stockton, but apparently had no living relatives. His age was estimated to be between 70 and 75 years.

Closing services were held Wednesday morning at Santa Clara City Cemetery under the direction of the Berge Mortuary Company of Niles.

RENEWS SCHEDULE

The Irvington Merchants, idle last week-end, will resume their diamond activities Sunday when they journey to Novato for a nine-inning game with the merchants of that community.

P.O. CLERKS FIND SOMETHING NEW

Clerks in the Niles post office, accustomed to finding such left-behind articles as umbrellas, gloves, sun glasses, fountain pens, pencils and countless other miscellaneous paraphernalia, were none-the-less aghast Monday by the latest addition to their collection.

So certain were they that the "thing" would be called for in a matter of a few minutes that it was given a choice spot near the package window for speedy delivery to what they assumed would be an exasperated loser.

The "thing," a baby's bottle, fully equipped, filled, and ready for action, is still at the post office.

BLAZE IN NILES CANYON BLOCKS HIGHWAY TRAFFIC

A grass fire, believed to have been started by a carelessly tossed cigarette from an automobile, Sunday burned an estimated 200 acres in Niles Canyon and caused landslides which necessitated closing the canyon road for more than two hours.

Fire crews from Niles, Livermore, Pleasanton, and Sunol battled the blaze for nearly 12 hours and prevented it from destroying any buildings.

The alarm was sounded about 11 a.m. while the Niles Firemen were fighting a small blaze in Clark Canyon. By the time they had extinguished the first fire and arrived at the scene of the Niles Canyon blaze it had swept to the top of the crest about two miles east of Niles. In the meantime the blaze had burned off grass which had been holding rocks in the cliff overlooking the roadway and allowed the rocks to tumble into the road, making it hazardous for traffic. Niles Fire Chief Clarence Crane immediately threw up a roadblock and called out the county maintenance crew to clear the highway.

The fire-fighters, believing the blaze out, ceased operations at 5:30 p.m. but were called out again at 7 p.m. when winds fanned some embers into blaze. The second session of fire-fighting lasted for four hours while the firemen battled the blaze down the slope approach to Sunnybrook Park.

NILES WOMAN DIES AT AGE OF 96

Niles lost one of its most-beloved citizens last week with the passing in a San Jose hospital of Mrs. Susannah H. Dunlap, 96, the mother of the late Rev. D. Q. Grabill.

Mrs. Dunlap, who made many friends in the few years she lived here, was active and alert up until the time of her death. The day before she died, according to friends, she inquired about the Russian situation.

A native of Illinois, Mrs. Dunlap was the aunt of Bill Henry, Washington, D. C., former Los Angeles Times sports editor, now a columnist for that paper and a world-affairs commentator for Columbia radio network.

Besides Henry, Mrs. Dunlap leaves two other nephews, Homer Pugh and Charles A. Pugh, both of San Jose. She is also survived by two granddaughters, Mrs. Kathleen Kay of San Jose, and Susanne Hoelter of Wisconsin; a grandson, Wilson H. Grabill of Washington, D. C., and four great-granchildren.

Her son, the late "D.Q." as he was affectionately called by those in Niles whose high regard he won when he was the Congregational minister here, died two years ago of a heart attack when he was on a vacation trip in the east. His widow lives in San Jose with her daughter.

Funeral services for Mrs. Dunlap were held Monday afternoon from the Darling-Fischer Garden Chapel in San Jose. Interment will be in Abington, Ill.

With the passing of Mrs. Dunlap, it was decided by the trustees of the Niles Congregational Church to erect a memorial to honor her and her son, the late Rev. D. Q. Grabill. The memorial—the form of which will be decided at a later date—will be placed in the social hall to be built in the near future.

Those who wish to make contributions for the memorial may do so by contacting Fred Duffie, treasurer.

ALVES WILL HEAD FETE FOR FIREMEN

Plans to give a barbecue in the near future for members and commissioners of the Niles Fire Department were made Tuesday at the weekly meeting of the Niles Chamber of Commerce, with A. M. Alves appointed as committee chairman in charge. For many years the Chamber has made a yearly practice of entertaining the firemen, in appreciation of their services.

Chamber Will Study Local Well Problem

The critical water problem in Washington Township was aired Wednesday at the luncheon meeting of the Centerville Chamber of Commerce and a committee was appointed to meet with the directors of the Alameda County Water District to learn what remedies are planned.

One member, in reporting the uncontrolled drilling of wells, said that there was no attempt on many drillers' part, to comply with regulations to seal off top water levels which are infiltrated with salt water. "We are fortunate in having a good water table at about 200 feet but if we lose that or allow it to become contaminated with salt water this part of the country will become a desert," he added.

A. E. Alameda, field manager for the L. S. Williams Company, fruit and vegetable shippers, reported that during the past week the company had been losing "about a well a day" because of salt water infiltration. He added that the water in many of the wells now in use had fallen to 115 feet from the surface from a 40 to 50-foot level two years ago.

President Allan Walton, who presided, appointed Judge Allen G. Norris, Louis Cardoza and Jack DeLuce to the committee to meet with the water directors to pledge their support in any form of water conservation and get a report on and contemplated plans for coping with the situation.

REPEAT OF '29 CRASH IMPOSSIBLE

R. E. Bosshard, member of an Oakland broker firm, speaking Tuesday evening to the members of the Centerville Lions Club, prophesied that this country will never again suffer such a financial crash as it did in 1929.

His statement was based, he said, on the fact that legislative measures have been passed since that time governing banks, corporations and investment and loan companies. He revealed that in recent years the great swing in investments throughout the country is toward investment funds.

HURT IN CAR CRASH

Jesus Ramirez, a Mexican nationalist employed at Watsonville, received injuries about 2 p.m. Sunday when the car he was driving went out of control and overturned in a roadside ditch on a dirt road just off the Centerville-Alvarado highway. He was taken to Fairmont Hospital in the Dallas Paul ambulance.

NEWARK MAN HURT

Noberto Alvarez, 52, Route 1, Box 153, Newark, received minor injuries about 1 a.m. Tuesday when he lost control of his automobile on Hesperian Boulevard near Alvarado and it overturned in a field. He was rushed to Fairmont Hospital in the Dallas Paul ambulance from Centerville.

PUBLIC HEARINGS CALLED ON 1948-49 SCHOOL BUDGETS

Public hearings on the 1948-49 proposed budgets for the nine elementary schools and Washington Union High School have been called for next week by Vaughn D. Seidel, County Superintendent of Schools.

All of the budgets, as submitted by the Boards of Trustees, call for increases in expenditures for the next school year, with the exception of Alviso and Alvarado. The increase in budgets for most of the schools was largely accountable to the increase in teachers' salaries and increased cost of operation and maintenance of the school plants.

EXPENSES INCREASED

The budget for Washington Union High School calls for an increased expense of $45,201, with the estimated expenditures for the 1948-49 year set at $359,713, as compared with $314,512 for the previous year.

Estimated expenditures at Decoto Elementary School will run $26,190 over last year with this year's budget set at $111.627 as compared with $85,437 for 1947-48.

Expenditures at Alviso School are expected to be $887 under last year's with the new budget set at $21,943 against $22.830 for 1947-48.

Alvarado's 1947-48 budget of $54,158 has been pared to $53,240 for the coming year, according to figures released by Seidel.

The preliminary 1948-49 budget for Mission San Jose Elementary School sets the anticipated expenditures at $19,492, an increase of $1,230 over the $18,262 for 1947-48.

COSTS RISING

Increased expenses of $20,247 are anticipated at Niles Elementary School where the new budget calls for $93.980 as compared with $73,733 for the past year.

Newark Elementary School's new budget shows an increase in expenditures of $14,117 over the $58,899 for 1947-48.

Warm Springs asks for an increase of $4,883 for its 1948-49 budget of $23,788 over the $18,905 for the previous year.

At Irvington Elementary School, the new budget of $106,121 is a $22,411 increase over last year's $83.710.

The 1948-49 budget for Centerville Elementary School asks a $8,855 increase over the $51,303 of last year to the $60,158 for the current year.

The first vice-president of the Auxiliary is Mrs. Margaret Jones of Irvington. Elections were held at the regular meeting last Wednesday.

Delegates to the convention in September were also named, as follows: Lillian Robinson, Florence Graber and Betty Pool, with alternates Marilyn Zwissig, Geneva Smith and Rose Vieux.

NILES FIREMEN AVERT CAT-ASTROPHE

* * * * * * * * *

POLE SITTER BROUGHT SAFELY TO EARTH

"Pussy-cat, pussy-cat, where have you been?"

"I've been up on a telephone pole on Duarte avenue, Niles, and if it hadn't been for the Niles Fire Department I would still be there."

This bit of dialogue might easily have been enacted between Duilinda Duarte of Duarte avenue and her feline pet, had the latter had the power of speech. Last Thursday night, "Fuzzball," as he is affectionately called by his mistress, was rescued from a plight that was most embarrassing, not to mention being decidedly uncomfortable. Fuzzball was up on a telephone pole. He had been there for eight hours when his mistress, stricken with sympathy for the poor creature who had made several unsuccessful and pathetic attempts to get down, finally thought of the fire department. It was Thursday night, the firemen's night to "rehearse," so they would probably be at the fire house.

They were. What's more, they were most understanding of Fuzzball's predicament. They would do all in their power to be of service.

Seven of the firemen pulled up in the fire engine to the scene of disaster. They coaxed, and pleaded, and called "Here Fuzzball." But Fuzzball is a coward. It was a long climb down to earth, and he wasn't up to it.

So Frank De Salles, a fireman whose heart warmed towards the helpless creature, volunteered to go up after him. The ladder was put up, and Fuzzball was brought down. And never was any creature—human or cat—more grateful to a fireman.

Township Averaging Six Homes Weekly, Growth Survey Shows

Washington Township is growing to the extent of six new homes each week and a new business house every ten days.

This fact was borne out by a survey made this week by The Register of the number of new homes and businesses completed and occupied since January 1 of this year.

The survey revealed that since the conclusion of World War II, three years ago, the post-war building program here has continued to gain momentum, and, from the number of buildings now under construction, is assured of maintaining its present pace for some time to come.

MORE UNDER CONSTRUCTION

Three weeks past the half-way mark of the current year, 163 new homes have been completed and occupied, and 18 new stores and industries have located here and opened for business.

Not included in the survey figures are the more than 100 homes and nearly a dozen business houses now under construction but not yet occupied.

By far the largest majority of homes were constructed in tract developments such as Lindsay Gardens, Adobe Acres, Ellsworth Orchard, Irvington Tract, Ford Tract, Holland Tract, Suhnel Tract and Hansen Tract.

The tabulation on business houses is due for a marked boost when the six store buildings, now under construction in Newark, are completed and occupied.

EACH TOWN GROWING

Each of the eight communities of the township has enjoyed a share of the growth, with new homes springing up throughout the countryside.

Contractors have reported that the construction of new homes has slowed to some extent by what they hope is the temporary suspension of Title 6 F.H.A. loans, which allowed veterans to purchase new homes with little more down payment than the closing costs.

CANNERIES CLOSE COT SEASON; OPEN ON PEACH PACK

Local canneries will close down the packing of apricots this week-end, and after an idleness of about a week, will reopen for the peach season.

Two of the three canneries, Schuckl Company, Niles, and Marlo Packing, Decoto, reported yesterday that they are still in need of additional workers before they can get underway with the canning of peaches.

A. Moore, plant superintendent at Schuckl, said yesterday that they expect to begin the canning of peaches late next week and will need considerably more workers to operate on the planned two-shift basis.

The F. E. Booth Cannery in Centerville will close down the canning of apricots today or tomorrow and will begin the peach pack on August 10. A plant official said yesterday that they will have a sufficient crew of workers.

The Marlo plant in Decoto is expected to finish up on the apricot canning Monday and will be idle for about a week before receiving shipments of peaches from Modesto to begin the packing season. The plant has been operating with one shift, but an additional shift is planned for the peach pack if sufficient workers are located.

EXHIBITORS WIN FLOWER AWARDS

More than 3,000 people attended the Third Annual Begonia Show held at Hayward last week-end under the auspices of the Southern Alameda County Branch of the American Begonia Society.

Township exhibitors who received awards at the show were: Mrs. Fritz Waltenberger, Centerville, second prize, rex begonia display; Ray Alberts, Newark, second, informal display; Mrs. Fred Mueller, Newark, and Mrs. W. L. McWhirter and Mrs. Thomas Powers, both of Centerville, received awards for floral arrangements. Mrs. Ruby Rogers, Newark, received first prize for tuberous hanging begonias.

The botany island at Hayward High School furnished a beautiful setting for the annual free show.

The Society Trophy for the best display in the show went to Mrs. Ida B. Cox of Hayward and the Dave De Bernardi Trophy was won for the second consecutive year by Mrs. Dorothy Bayliss, also of Hayward.

The awards and prizes were distributed at 9 p.m. Sunday by Alberts, president of the organization. D. A. Welch, Niles, received a commendation for his outstanding naturalistic display and for the fence background for most of the displays for the show.

IN COURT TODAY FOR MOLESTING CHILDREN

Anado V. Vite, a Filipino residing in Centerville, was arrested Wednesday and is being held under a bail of $5,000 charged with four counts of molesting two nine-year-old Centerville girls.

He is scheduled to appear in Niles Justice Court at 9 a.m. today (Friday) for arraignment before Judge E. A. Quaresma.

YOUTH FELLOWSHIP PICNIC

The members of the Youth Fellowship of Niles Congregational Church enjoyed an evening of swimming, followed by a picnic, at Elderberry Park last Sunday.

ROTARIANS HEAR BUILDER SPEAK

"Construction — No Sleeping Giant" was the subject of a talk before the Niles Rotary Club yesterday by John I. Hennessy of Oakland, vice-president of the Associated Home Builders of Alameda County.

The speaker told of progress being made to house the nation, correcting the number of general misimpressions about the building picture. E. E. Dias, Niles contractor, introduced Mr. Hennessy.

RESUMES SERVICES

The Niles Congregational Church will resume services at 11 a.m. Sunday. The Sunday School will remain on vacation until after the Vacation Bible School, which will be held near the first of September.

Mission-Central Will Vie For Softball Trophy Tonight

The deciding game in the two-out-of-three playoff for the President's Trophy of the Washington Township Softball Association will be played tonight between Central Chevrolets and Mission San Jose Firemen.

The Chevrolets, the cinderella team of the post season competition, really hit their stride the past two weeks after a late season slump that nearly cost them the right to play in the runoffs.

The fourth-place team in the American League standing, a favorite with the crowd, ousted the seeded Kleine aggregation in the trophy race last Thursday evening 2 to 1 for their second straight win. The same evening Vilela's forfeited to Pacific States Steel for lack of enough players.

NATIONALS DOWNED

Friday night the Mission Firemen, in the semi-final rounds of the playoff, took the decisive third game from the Native Sons 2 to 1 in a hard-fought nine inning battle. Westvaco trounced Wedgewood's hopes of getting into the senior league by downing them 5 to 0.

Monday evening, in the first of their three-game series in the final play-off, the Missionmen scored a shutout over Central 3 to 0 and Vilela's successfully defended their right to play next season in the American League by defeating Pacific States Steel, National League contenders, 4 to 3.

Wednesday evening the Centrals evened up the playoff at one-each by outpointing Mission 3 to 2. The "kids," as the Chevrolet club is called by the crowd, got an early jump on the defending champs by bringing in two runs in the opening inning. The hill men pushed over two runs halfway through the contest to tie up the score at 2-all but the youngsters scored their winning run on a long sacrifice fly in the sixth and held that one-run margin for the victory.

LEAGUES UNCHANGED

Standing room is expected to be at a preimum in the ball park tonight when the two clubs meet for the final game of the 1948 softball season.

As a result of the play-offs during the past two weeks, Al Silveira, president of the softball association, announced this week that there will be no change in the two league rosters for next season. Both teams from the National League that had won the right to compete with the cellar teams in the American League for positions in the senior league, were downed in their challenged bouts.

ALL-STARS SECOND IN OAK TOURNEY

The Hayward All-Stars, whose roster of players reads like a Who's Who of Baseball of Washington Township, were beaten in the finals of the annual Tribune Baseball Tournament in Oakland Sunday by the El Cortez Club of Richmond.

The Hayward nine, after knocking over four opponents during the elimination rounds, bowed in an 8 to 4 defeat before a crowd of 8,000 fans in the Oakland ball park.

Big "Hank" Dutra, popular Washington Township hurler, who held up more than his share of mound duties during the tourney, was slated to hurl the final game but was unable to pitch.

Other township players who saw duty in the game Sunday were Leonard Smith, center field; Ted Garcia, left field; Buddy Marshall, right field; and Dave Rebiejo, catcher.

SPORTS

D. J. CLARK WINS NILES DEER SHOOT AS 1,100 SPORTSMEN COMPETE IN EVENT

An estimated 1,100 sportsmen gathered at the Castro Ranch on Niles-Mission Highway last Sunday for the Running Deer Target Shoot sponsored by the Niles Sportsmen's Club.

A large field of sharpshooters was entered in each of the events and a total of 69 prizes were awarded the winners and runner-ups.

Grand prize winner in the casting tourney was E. H. Frick, who received a $10 merchandise order donated by the P. C. Hansen Lumber Company.

The .22 caliber rifle shoot was won by Joe Muller and Art Kimber in a tie for fist place and they split a case of wine donated by Los Amigos Vineyards.

FINE EXHIBITION

The trap shoot was won by Mingorio of Livermore, who received a Montague fishing rod donated by the Sportsmen's Club and a reel donated by Frick's Sport Shop.

The big event of the day, the Running Deer Shoot, was won by D. J. Clark of Niles and his prize was a suckling pig donated by Joe Castro.

Mrs. Karl Kaiser of Niles won the ladies .22 caliber rifle shoot.

During the lunch hour intermission, Joe Gomes, world famous casting expert, gave a thrilling hour-long demonstration and exhibition of tricks and feats with his fishing gear. Gomes displayed uncanny accuracy in fly casting, plug casting, and surf casting, that was the envy of all the fishermen and would-be fishermen present. He was presented under the auspices of the Frick's Sport Shop in Niles.

WELL MANAGED

Richie Davis was general chairman of the day and handled the affair in a competent manner. As Davis points out, however, a large share of the credit to the smoothness of the day-long contests goes to the individual chairmen of each event.

SPORTSMEN WILL REPEAT RUNNING DEER SHOOT HERE

The Niles Sportsmen's Club, sponsors of the successful Running Deer Target Shoot last Sunday at the Castro Ranch, announced this week that a repeat performance will be held Sunday from 10 a.m. to 6 p.m.

In announcing the coming shoot, Ernie Frick said, "We feel that there are many hunters who would like to try out their deer rifles before the coming season opens on August 7. There will be no admission charge, so bring your family and get a last crack at the running deer target before the season opens."

He revealed that there will also be trap shooting, with hams to be awarded to the highest scorers in each of the events. Refreshments will be available at the grounds.

Remember the date — Sunday, August 1. Remember the place—Joe Castro Ranch, midway between Niles and Mission San Jose. Remember the time—10 a.m. to 6 p.m.

4-H CLUB MEMBERS ON ALL-DAY TOUR

Mrs. Charles O'Malia and daughters, Patricia and Jacqueline, of Warm Springs, were among those who attended the 4H Club all-day tour last Wednesday led by Miss Gladys Boone, Assistant Home Demonstration Agent, for those 4-H Club members who had completed their year's work and exhibited at the County Fair.

Among the interesting places visited were Hooper's Candy Factory in Alameda, the Singer Sewing Machine Shop, H. C. Capwells, where fall fashions were reviewed, and the J. C. Penney Co. where the club members listened to an interesting discussion of interior decoration.

The group had a picnic lunch at Washington Park.

The California State Park System dates from 1927, when the Legislature created a central park commission, with authority to control policies and administration.

A California spiny lobster taken at San Pedro weighted 26 pounds.

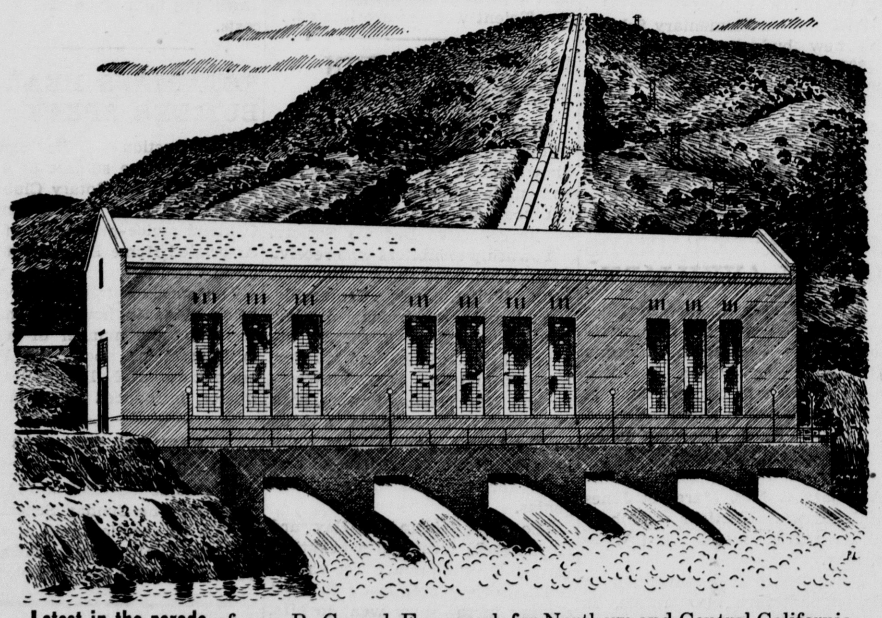
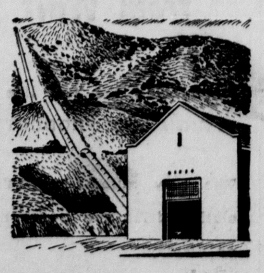
New Electra Powerhouse now pouring power into P. G. and E. lines



Latest in the parade of new P. G. and E. power producers is the Electra plant on the Mokelumne River eight miles from Jackson. New Electra is one of four powerhouses, completed or underway, spaced along the river...powerhouses to take the muscle from the Mokelumne and put it to work for Northern and Central California homes, farms and factories. One Electra unit began pouring power on the line this week and, when at full capacity, Electra will produce 133,000 horsepower. The four Mokelumne plants will turn out a total of 250,000 horsepower.



A pipeful of power . . . the penstock shown here feeds Mokelumne water from the reservoir to the powerhouse under high pressure. There it's jetted from giant nozzles at terrific speed against the water wheels that whirl power-making turbines.

Power enough to serve the cities of Berkeley, Richmond and Emeryville will pour out of New Electra. The entire Mokelumne project will produce nearly twice that much. And this is just part of our program of more power . . . to serve you better.

for the record

New Electra stands near the site of the first plant to serve San Francisco with hydro-power.

P. G. and E. is investing in California at the rate of more than $10,000,000 a month.

The first half-million new horsepower is being added in the next seven months.

MISSION SAN JOSE NEWS

By LOIS BOTTENBERG

Lois Bottenberg

WEEK-END GUESTS

Mrs. Alice Stefenoni, Livermore, spent the week-end at the home of her daughter, Mr. and Mrs. Mervin Telles and daughter, here in the Mission. The Telles are now definitely settled in their new home at the corner of Mill Creek road and Mission-Niles highway.

MRS. SLOAN INJURED

Reports have reached your correspondent that Mrs. Elizabeth Sloan sort of got a few bruises and a rib hurt last week while trying to be the man on the flying trapeze. The apricots were just too high and not being too steady, the ladder decided to act up a bit and let her down. She is not down or out either, being able to attend to her duties and home, but nevertheless favoring her ribs a bit.

MOTOR TRIP

Mr. and Mrs. Leland Telles and sons of Irvington motored to Modesto over the week-end accompanied by their mother, Mrs. Rose Telles, and visited at the home of her sister, Mrs. Lou Kahn and family.

DINNER GUESTS

Mr. and Mrs. Tom Santos and Michael and Diane of Burlingame were week-end visitors here at the Bottenberg home. Mrs. Elsie Wilcox, also of the Bottenberg residence, spent Sunday and had dinner at the home of her son, Mr. and Mrs. Daniel K. Cross and family on Durham road.

'I'LL BE DARNED'

You have heard of Liars' Clubs, Fish Story Clubs, etc., but I bet this is a new one on most of you. When the Smiths arrived in town to take over the Guadalupe Inn several months ago they were a bit appalled at the vulgarity of the king's English, so to curb this practice they set up a fine for all the boys and girls of town who used profanity in their place of business and it was placed in a kitty. This money was to be used to have a party some time in the future, but somehow swearing became a lost art (???) after a short time and the fund failed to grow, so all the participants in the "Profanity Club" voted to hand over their profits to the Youth Center of the Mission. So now the boys and girls are several dollars richer than they were last week. And thanks to our swearing neighbors for the funds but we are truly glad that it stopped growing altogether.

Thinking Things Over...

By VIVIAN BATMAN

Scotland Yard has nothing on the local law enforcement officers. Two weeks ago a bicycle was stolen from one of our boys. We thought we had seen the last of it. But no, after a few days of sleuthing by our local deputy, the bicycle was returned. I happened to know of another stolen bicycle that was also returned to a grateful owners. Moral: don't try to get away with bike theft in Niles.

'DEAR OAKIE'

A Niles radio and record shop disclosed this week that the most sought after record here is "Dear Oakie." They can't keep enough of these records in stock.

HIGH STAKES

In a trip to Tahoe over the week-end, we stopped in at the State-line Country Club to watch the gamblers (notice, I said WATCH the gamblers!). I saw a man lose $300 in a few minutes in a game of blackjack, without batting an eyelash. If you'd meet one of the girl dealers on the street, you'd probably put her down as being a college girl. Except that they have a certain pallor which probably comes from being confined in smoky rooms all the time. I can think of a lot of things I'd rather be than a dealer in a gambling hall, even for $15 a day (and tips) which is what the girls make.

George Barker of Niles, who proudly owns to 85 years, brought us a poem this week. It was composed by him two years ago and was inspired by a rose tree growing in the Henry Hibner garden.

Before we print the poem, perhaps we'd better tell you something about this interesting old man who has lived in Niles for 14 years.

The most remarkable thing about him is, perhaps, the fact that Queen Victoria was his godmother. His mother and Queen Victoria had the same birthdays, so that explains this unusual circumstance.

Born in England on August 27, 1863, Mr. Barker is a graduate of Oxford University, where he was a student in Christ College. When he was ordained a priest in the Church of England it was Queen Victoria who laid her hands on his head at the impressive ordination ceremony. That was on December 22, 1885.

He has gone through several of nature's most tragic disasters, including the Galveston flood, the cyclone in St. Louis, and the earthquake in San Francisco.

His wife died in San Mateo 20 years ago. He has several children, though he is rather vague as to their whereabouts. "Oh," he said, cheerfully enough, pointing off to different directions in space. "They're scattered — over here, over there—I'm not just sure where they are."

In spite of being alone, he doesn't seem lonely, and perhaps it is his philosophy—expressed a little in the poem below—that keeps him on the sunny side of life.

THE ROSE TREE

A rose tree grows on a lawn where I pass,
From behind, a window of deep beveled glass
Reflects the perfection—the beauty and love,
Of the tree growing there, as the sun shines above.

"Be still and listen," the tree said to me,
"And I shall tell you the deep mystery
Of the joy and the love I sent out to man
By simply unfolding God's own perfect plan.

"I'm a tree in the seed, yes, right at the start
With His perfect plan deep down in my heart.
My mission to fill, I obey the command,
And bring forth that which I have right at hand.
Not striving to grow as the famous Big Tree
But to fulfill the plan God has given to me
To grow up in strength, with beauty and grace;
And send out my perfume all over the place.

With love in my heart, at last I have won,
I bloom in abundance, right here in the sun,
My flowers and fragrance are love, don't you see?
And all that I have, I give unto thee.

Take them and give them to those whom you love
And rejoice in the blessings God sends from above,
I'll bring forth more roses with never a flaw
For Love never faileth, Love fulfilleth the law."

—George Barker.

BREAKFAST CEREAL MADE OF PRUNES

An inexpensive, healthful and tasty breakfast cereal can be made from sieved prunes, the University of California has announced through its food technology division.

In one procedure tested, a dough was made of whole wheat flour, white flour, bran, corn sugar, yeast or baking powder and sieved prunes. The mixture was baked in small loaves, sliced and dried. Then the slices were crushed and sieved to "grape-nuts" size.

The laboratory points to the fact that the cereal, obtained in this manner, contains more than 50 per cent of dried fruit.

Legislative power of Australia is vested in a federal parliament, consisting of the King, represented by a governor-general; a senate and house of representatives.

STUDY SHOWS HOW CALIFORNIANS EAT

California families serve more fresh fruit and vegetables and use more fruit in salads than those in Eastern and Mid-western states.

This was one of the observations made in a three-state survey covering California, Rhode Island and Nebraska, in which data on meal patterns in these three states were collected by a group of home economists under the direction of Dr. Jean Warren of the University of California College of Agriculture.

The survey also indicated that more than half of all Californians eat what was termed a medium breakfast, consisting of eggs, bread, beverage and either cereal or griddle cakes or bacon or other meat or fish. A heavy breakfast was preferred by almost one-third of the families interviewed, while only 17 per cent begin the day with just a simple meal of bread and beverage and perhaps cereal. Foods most commonly served for breakfast were cereal, eggs, bread, and coffee.

The survey revealed that light, medium and heavy lunches are almost equally popular in the state, but that Californians go in for heavy evening meals. A big dinner was preferred by 69 per cent of the persons polled.

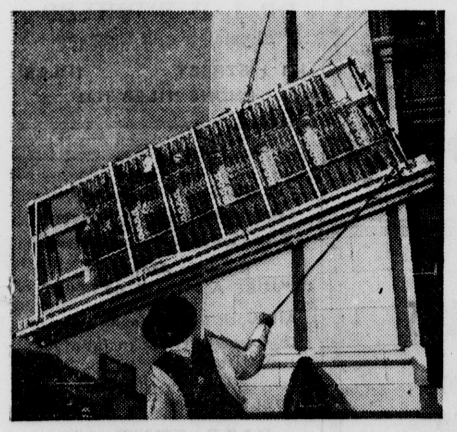
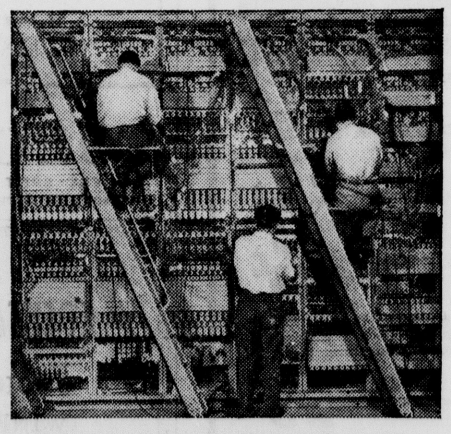
HOW TO SET UP HOUSEKEEPING ..telephone style

1. Building a home for telephone equipment is a big and complex job. The framework must be extra massive to carry heavy loads and resist shock. To make room for equipment, the stories are taller, too. This new building, larger than most but of typical construction, has fifteen floors...yet it's as high as a twenty-story building.



2. The "furniture" for our telephone home is the equipment needed to handle your calls. Manufacturing and installing it takes time...and lots of money. Your new telephones can't get to work without it, so we're putting in equipment, constructing buildings, and providing other facilities to the tune of over half a million dollars a day.



3. A lot of close, exacting work is still ahead. Thousands of tiny connections must feel the heat of a soldering iron before new equipment can handle your calls. Scenes like this are common in telephone offices all over the Coast today as we build and expand—in the face of high costs—to meet the West's growing needs.

4. Where does the money come from? Millions of new working dollars...needed to extend and improve service...must come, not from telephone bills, but from thousands of people who put their savings to work in the telephone business. To attract these working dollars, we must pay a reasonable amount for their use. This depends on the sale of our services at fair and adequate prices.

Can Corn in Variety for Next Winter's Meals

Cream Style, Whole Kernel, or Corn-on-the-Cob—you can have your own canned corn in variety for winter use. More corn will be canned this year, due to the fact that more pressure cookers are available. Most home canners prefer to use pressure cookers for canning corn because it keeps so much better and time is saved too. Be sure the gauge of your cooker is accurate.

Always can corn fresh from the garden or truck patch. It must not have been gathered the previous day and stood overnight. The kernels should be plump, shiny and full of milk-like juice.

To can corn Cream Style, cut tip ends from the kernels and scrape out the pulp. Add one teaspoon salt and two cups boiling water to each quart of corn. Boil three minutes. Pour into hot Ball Jars. Process 100 minutes at 10 pounds pressure.

For Whole Kernel canning, cut the corn from the cob and do not scrape. Add one teaspoon salt and two cups boiling water to each quart of corn. Boil three minutes. Pour into hot Ball Jars. Process 70 minutes at 10 pounds pressure. Whole Kernel corn usually has better color, flavor, and keeping qualities than cream style, according to the Ball Blue Book, from which these directions are taken.

To can Corn-on-the-Cob, boil the corn five minutes and pack into hot Ball Jars, adding one teaspoon salt to each quart. Cover with boiling water. Process 75 minutes at 10 pounds pressure. Many like to put up Corn-on-the-Cob because it is a novelty. However, it tends to absorb the flavor of the cob.

Pint jars are preferable and be sure to add one and one quarter cups of boiling water to each four cups of Whole Kernel and two cups of boiling water to each four cups of Cream Style corn. This facilitates heat penetration and helps prevent the corn turning brown. You can add one-half teaspoon salt and a little sugar, if you wish. Can either field or sweet corn, as you prefer, and can it when it is FRESH!

G. C. "Britt" Topel, manager of the locker plant in Niles, is proudly passing out cigars this week in announcing the arrival of a third daughter on Saturday, July 24, at Jackson Hospital in Oakland. At Lake Tahoe

Vacationing at Lake Tahoe for two weeks are Mr. and Mrs. John Santos of Thornton avenue. They were accompanied on the trip by Mr. and Mrs. Joe Cardoza of Oakland.

Her First Flight is Over Pacific Ocean

For a first time up in the air, most twelve year old girls would be a little dubious about making it a 14-hour trip over the Pacific. But not so Suzanne Gorman, daughter of Mr. and Mrs. A. W. Gorman of Niles, who flew from Hawaii last Sunday. It was not only her first flight, but she was on her own, too—for her mother, with whom she had been vacationing in Hawaii, had to remain there to take care of another daughter, Jacqueline, who was suddenly stricken with appendicitis.

Sue wasn't in the least bit apprehensive about the trip. "It was fun," she said. She left at 1 a.m. Sunday and arrived at San Francisco at 4 p.m. and was met by her father. She'd been having a wonderful time in Hawaii, swimming and surf-board riding, and horse-back riding, but she was anxious to get home to see how her daddy was getting along. "I was glad to get back to Niles," she said sincerely, "to see everybody again—and to see my horses."

Her mother will return home as soon as Jacqueline is on the road to recovery.

Niles Man Returns Home from Italy

Leaving Rome, Italy, last Friday morning at 12:30, Mr. Joseph Passagno of Niles arrived at the San Francisco airport Saturday at six p.m., and was greeted with a rousing welcome by the members of his family. He had been in Italy since early May.

When asked about conditions in Italy, Mr. Pessagno said, "There is plenty of food and clothes for everybody — if you have the money."

The country is torn by political and labor troubles, just as in other parts of the world, he said. While he was there, there was a general strike, and Communism, of course, causes constant upheaval in the country.

Even though he enjoyed the trip and was glad to have seen relatives whom he had not seen for 42 years, he was glad to get back home to Niles.

While he was in Italy he bought a Fiat car which made it easier to see the country. He sold it prior to his return. Being a manufacturer of tile himself, he was immensely interested in the tile factories over there. "Everybody uses tile and cement for building. They use little or no wood." Reconstruction and erection of new homes and buildings is very slow, he added, because of the lack of capital.

The new baby's daddy is with the Alameda County Water District.

U. C. EXPERIMENTS WITH DRIED PRUNES

A rapid procedure for preparing candied prunes from the dried fruit has been developed in the laboratory of the food technology division of the University of California.

Prunes are cooked in diluted corn and cane syrup. For awhile they are left standing, and then they are drained and dried.

The laboratory has also developed an excellent new candy bar from prunes. To obtain it, prune juice first is made into a jelly by cooking it with fruit pectin, sugar, citric acid and corn or invert syrup.

FARM NEWS
AGRICULTURAL EXTENSION SERVICE

CHOOSING A CANTALOUPE

Poking, pinching, picking up and smelling cantaloupes, as well as other fresh fruits and vegetables, is no longer good etiquette, says Home Demonstration Agent Mrs. Maryetta W. Holman of the University of California Agricultural Extension Service.

Probably no other fruit in the markets is the object of more abuse than the cantaloupe. Handling does not assure the shopper that the fruit will be of the best quality, and it leads to a high percentage of spoilage. Growers are now picking their cantaloupes at the stage where they come away from the stem clean instead of broken, which assures full ripeness.

There are three things to look for in choosing a good melon. The first is its color. A good cantaloupe is light yellow, not green. The second is that it is fully netted from the stem to the blossom end. The vein-like netted covering should be full and rounded and should stand up from the melon about one-sixteenth of an inch. If it is well-ripened, the netting will be close together, rounded and cracked. The third thing to observe is the shape of the melon. Choose one that is well-rounded, not pointed.

Mrs. Holman says sunburned melons should be avoided. They can be recognized by a smooth, whitish area on the surface where the netting and the skin have been partially destroyed.

WATCH YOUR RABBITS IN HOT WEATHER

You folks who are raising your own rabbits for a home meat supply had better watch them in hot weather, Farm Advisor Lee Benson advises.

Rabbits need special care when temperature gets high. Look in on your rabbits often to be sure they have plenty of shade, good air circulation, and enough water. When it is hot, rabbits get extremely restless, breathe fast, and moisture appears around their noses. Sometimes they have slight hemorrhages around the nostrils. Changing them to a quiet, well-ventilated place when they show these signs of suffering from the heat will usually relieve them.
